

# Credit Valley Conservation gains two new properties

The provincial government transferred 10 key green spaces to communities across Ontario. The properties contain a range of significant natural values, including wetlands, hardwood forests, environmentally sensitive areas, and unique ravines and trail systems.

Credit Valley Conservation was one of several beneficiaries and received two important

properties in Brampton and Mississauga. In Brampton, the Credit River cuts through this 19-acre sensitive wetland and low-lying property located north of Highway 407 and south of the CPR rail line. In Mississauga, the three-acre site of environmentally sensitive valley land along Mullet Creek, consists of two properties on either side of Burnamthorpe Road, just east of Mississauga Road.

“Credit Valley Conservation is excited to be receiving land from the Ontario government,” said

## Facilities policy is adopted

With new facilities coming on, the Town of Caledon will continue with its long-established policies in dealing with use and rental requests.

Inquiries for ice time

Pat Mullin, CVC chair and City of Mississauga councillor. “These lands will contribute to our vision of a

linked corridor of green along the Credit River. In light of the anticipated challenges facing our

increased once construction of the new arena in Caledon East began.

There are currently procedures in place to allocate time to user groups based on past rental history.

Facility rental arrangements will be granted in a fair and equitable manner.

Priority will be given to not-for-profit organizations serving youth 18 years of age and under with a minimum of 80 per cent of the participants being Caledon residents.

The group must demonstrate a preference for Caledon residents by offering registration for residents only, up to a set and advertised date.

Priority will also be given to Town of Caledon programs.

Requests from resident

organizations offering adult programs will be considered after allotments to minor organizations have been confirmed.

watershed due to climate change, CVC commends the province for its recognition of the vital role greenspace plays in maintaining a healthy environment for all. CVC commits to working co-operatively with the Region of Peel and all our community partners to ensure the long term protection of these greenspaces.”

Rae Horst, CAO of Credit Valley Conservation, receives a small tree to plant from Minister Harinder Takhar at the Mullet Creek site.
