## Blackhorse celebrates 38 years with comedic season opener

Blackhorse Village Players opens their 38th season next Friday (Oct. 24) with the Neil Simon comedy *I Ought to be in Pictures*.

This show is anything but an ordinary

season opener for Blackhorse. With her directorial debut, Kathleen Horzempa is making changes and consequently some waves at the theatre. With an elaborate set, new multimedia in the lobby, a stellar sound-

track and a few surprise extras, opening night will not disappoint.

This comedy centers around Libby, (Sarah-Jayne Martin,) who runs off to California to try her luck with show business. Hoping her estranged father (Rod Cook) can boost her career. She not only has to deal with the rejection of the biz, but also

with his on-again-off-again girlfriend (Angie Sapalovski.) This dysfunctional family is one everyone can relate to.

The show runs from Oct. 24 to Nov. 8.

For tickets, call the box office at (905) 880-5002 and check out [www.blackhorse.ca](http://www.blackhorse.ca) for more ways to get involved in your community theatre both on and off the stage.

Sarah-Jayne Martin, Angie Sapalovski, and Rod Cook will be hitting the Blackhorse stage next Friday for the opening of *I Ought to be in Pictures*.

## Promotion for War Amps

Empire Theatres in Bolton will be having a promotion event this Friday (Oct. 17) surrounding the release of the new Canadian war epic *Passchendaele*.

Representatives from War Amps will be on hand to collect donations and offer information on their organization.

Theatre staff will be dressed in garb from the First World War era, and the theatre lobby will be decorated like a bunker. There will also be representatives from the Great War Flying Museum and Air Cadets, as well as Boy Scouts selling apples in honour of Apple Day.

As well, there will be in-theatre trivia, complete with prizes and giveaways.

**Fun By The Numbers**

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:  
 Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
